Your Future Harvest

Welcome to Vikima Seed A/S

We will do our very best to secure that your future harvest will be even better.

Vikima Seed A/S is one of the world's leading producers of vegetable- and flower seed and one of the few seed companies which still maintains a large range of open pollinated varieties.

100% of our production is exported to more than 70 countries around the world. We specialize in servicing the developing countries and we take pride in supplying only the best quality to places where seed truly is the equal to life.

Being a production company makes it possible for us to supply the same strains and high quality year after year. Vikima Seed can offer more than 250 OP varieties and we can be your sole supplier for your local market.

We are proud of our quality and our way of doing business. We are not just another seed company, we are your personal partner in the international seed business.

SELECTION

Vikima Seed is one of the few seed companies which still maintains a large range of open pollinated varieties

Tomato Chico III

Fruit shape: Pear shaped
Fruit weight (gr): 55 - 85
Plant habit: Determinate
Maturity (days): 75 - 80

Tomato Floradade

Fruit shape: Globe
Fruit weight (gr): 125 - 175
Plant habit: Determinate
Maturity (days): 75 - 80

Tomato Heinz 1370

Fruit shape: Globe
Fruit weight (gr): 110 - 130
Plant habit: Determinate
Maturity (days): 75 - 80

Tomato Marglobe

Fruit shape: Deeb oblate
Fruit weight (gr): 100 - 130
Plant habit: Indeterminate
Maturity (days): 90 - 95

Tomato Marmande

Fruit shape: Oblate
Fruit weight (gr): 140 - 170
Plant habit: Semideterminate
Maturity (days): 75 - 80

Tomato Moneymaker

Fruit shape: Globe
Fruit weight (gr): 60 - 70
Plant habit: Indeterminate
Maturity (days): 75 - 80

Tomato Rio Grande

Fruit shape: Oval
Fruit weight (gr): 100 - 110
Plant habit: Determinate
Maturity (days): 90 - 95

Tomato Rodade

Fruit shape: Globe
Fruit weight (gr): 100 - 150
Plant habit: Semideterminate
Maturity (days): 90 - 95

Tomato Roma VF

Fruit shape: Pear shaped
Fruit weight (gr): 60 - 70
Plant habit: Determinate
Maturity (days): 90 - 100

Tomato Roma VFN

Fruit shape: Pear shaped
Fruit weight (gr): 60 - 70
Plant habit: Determinate
Maturity (days): 90 - 100

SELECTION

Vikima Seed is one of the few seed companies which still maintains a large range of open pollinated varieties

Tomato UC 82 B

Fruit shape: Square
Fruit weight (gr): 80 - 100
Plant habit: Determinate
Maturity (days): 75 - 80

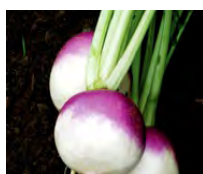

Watermelon Sugar Baby

Maturity (days): 85
Shape: Round
Weight (kg): 4 - 5
Skin: Dark green
Flesh: Red

Turnip Early Purple Top White Globe

Maturity (days): 50 - 60
Skin colour: White with purple top
Flesh colour: White
Root diam. (cm): 8 - 12
Leaf type: Lobed
Root shape: Globe round

Turnip Goldball

Maturity (days): 38 - 43
Skin colour: Yellow
Flesh colour: Yellow
Root diam. (cm): 5 - 8
Leaf type: Lobed
Root shape: Globe round

Turnip Snowball

Maturity (days): 30 - 35
Skin colour: White
Flesh colour: White
Root diam. (cm): 5 - 8
Leaf type: Lobed
Root shape: Globe round

Watermelon Charleston Grey

Maturity (days): 90
Shape: Oblong
Weight (kg): 10 - 15
Skin: Light green
Flesh: Bright
